EOC Series - decorative, polycarbonate, surface luminaires

A range of Italian designed decorative IP65 rated all-polycarbonate surface mounted luminaires with 'quick release' opal diffuser and various coloured base options.

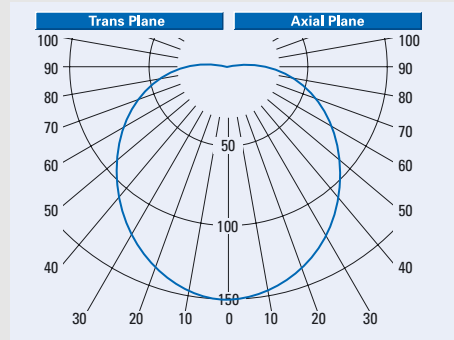

The coloured bases are translucent to allow an attractive halo glow onto the surface mounting (with exception of brass, white or black). All units are designed to accept 28w or 38w 2D lamps which are supplied.

3 hour emergency conversions are available in the 28w high frequency configuration.

Control gear options are standard switch start or high frequency electronic control. Conduit side entry facility.

Dimensions - Diameter: 330mm, Depth: 130mm
