

Case Studies—Air Conditioning examples

Thane Direct

Thane Direct the shopping internet site, required an air conditioning maintenance service for two of their air conditioning units. The units required a service and cleaning of filter. We recommended to the client, the best value for money option which also covered the company for the F Gas regulations. It is our helpful advice and competitive quote that gave Thane Direct the confidence to take out a maintenance contract with DX Electrica. www.thanedirect.co.uk

Inspirit Brands

Inspirit Brands required advise on their air conditioning problems at their main office. The problem was diagnosed as a refrigerant leak and was fixed in accordance to the F Gas regulations. DX Electrica provided helpful customer service over the phone and the client was impressed with the helpful and efficient air conditioning technician. In Spirit Brands have since joined the DE Club, and requested a air conditioning maintenance contract. www.inspiritbrands.com

Sun Red

Sun Red plans, designs and builds often, complex club and bar design projects. Sun Red required an air conditioning solution to one of their client's bar. The client is a world leading media agency, and their head office is based in Holborn, London. Sun Red was looking for a solution that would both cool and heat the new bar area. DX Electrica came up with an innovative design and suggested the VRF inverter system which enabled both comfort cooling and heating to the whole area. The heating option on the system means that the client can reduce energy costs and keep in line with their green energy supply ethos. The client and Sun Red were impressed with our prompt service and still provides the air conditioning maintenance at the site. For more details on Sun Red please visit www.sunred.co.uk

Cavendish Engineers

Cavendish Engineers is an associate company of DX Electrica. It provides M and E maintenance to large buildings within the London and Westminster area. DX Electrica delivers air conditioning inspections, and air conditioning maintenance to Cavendish Engineers' buildings. We have experience in providing air conditioning maintenance services on a large scale for both FM and property management companies. For more details on Cavendish Engineers please visit www.cavendishengineers.net

Case Studies—Air Conditioning examples

THS Resourcing

THS Resourcing are a recruitment agency based in ClerkenWell. THS Resourcing already had two air conditioning units at their premises. However, where the office had been portioned into sections it meant that they required further cooling. This meant that an additional two units were installed to the premises. At the time of installation we also moved their current outdoor unit to another area; this was to alleviate the hot air generated by the unit which was in the companies break out area on the terrace. Our electrical division was also able to add a spare way to the distribution board, so that there was enough power to drive the air conditioning system.
