*"DX Electrica completed the work quickly and as the work was ECA guaranteed it gave me piece of mind that the work would be of a good standard."*

*Richard Moyle, Cuthbert Lake,  
Chartered Surveyors.*

### **The ECA Guarantee**

**"The ECA automatically guarantee all work undertaken by a member up to the value of £50,000. "**

*"Thank you very much for your assistance and services provided to us. We are very happy with it and certainly will contact DX Electrica in the future if we need your services again."*

*Guilherme Vieira  
East London School of English*

*Delivering electrical and air conditioning services to a range of industries including the retail sector.*

*"They were able to provide not only a air conditioning installation but helped us move an existing unit and re-commission it. Their customer service was great!"*

*Katie Wrigley  
THS Resourcing*

## Specialist sectors include

**Leisure and Entertainment**—London is one the most exciting capitals in the world for entertainment and leisure. With over 27 million visitors flocking to the city every year, can you afford for poor electrics and stuffy conditions to stop you entertaining your customers?

Dx electrica has experience in designing, installing and maintaining both electrical and air conditioning systems to the West End night clubs and bars.

### **Commercial and London offices**

Whether you are a small or large office, dx electrica can take care of your air conditioning and electrical needs. Being based in London ourselves, we understand that there are occasions, when electrical or air conditioning faults can affect the running and productivity of a business.

### **Retail**

Dx electrica recognise the fact that insufficient comfort cooling and faulty electrics could make a real impact to the retail sector. We also understand that work needs to be carried out without affecting the running of the shop.

### **Government / Local Authority**

DX Electrica have over 8 years experience in this sector. In this time our projects have involved installation of a complex lighting scheme to a prestigious government heritage floor in Westminster, air conditioning maintenance to all departmental floors and a complete refurbishment of the staff restaurant.

### **Landlords**

With so much legislation in place for landlords it can sometimes be confusing as to which electrical certificates are required.

DX Electrica can provide a full electrical and air conditioning package to Landlords and re-fir companies.

Services include; inspection of electrical outlets, electrical installations, PAT testing, landlord certificates, fire
