## Datalinx Computer Systems Ltd Acquires IC Scan

### Headlines

The Directors of Datalinx Computer Systems Ltd are pleased to announce that they have purchased the Intellectual Property Rights (IPR) for the IC Scan Warehouse Management System from the BDE Group.

This acquisition adds further depth to the Datalinx product range and is seen as a key offering in providing software packages for all Sage users from entry level through to full warehouse management systems.

James Percy, Managing Director of Datalinx commented: *"We see this acquisition bringing stability to a critical third party add-on for the Sage market place, giving confidence to Sage users that their Warehouse application has a future in these turbulent times".*

Melvin Fletcher, Sales Director outlined the steps that Datalinx will be taking to provide a continued service for the IC Scan users; *"Having just acquired this product we will undertake a site by site review and discuss with each client their needs and concerns.*

*Clearly with our many years of experience in this market sector, we can offer a number of options to the IC Scan users.*

*Clients should rest assured that Datalinx are committed to ensuring that they will have a Warehouse Management system, tightly integrated into Sage and delivering competitive advantages to the users".*

### Further Information

Further information will be provided by Datalinx Computer Systems Ltd as the road map for increased product range is reviewed and a full understanding of the IC Scan product is gained.
