

# ARTIS

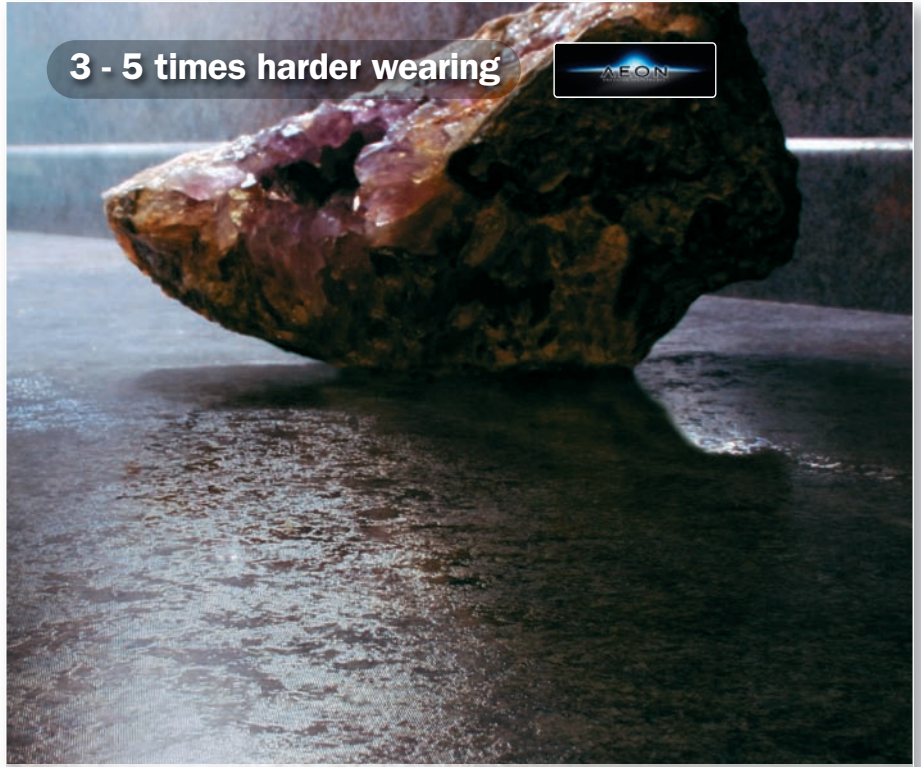

original fireglaze

40MM POSTFORMED LAMINATE SURFACES

3 - 5 times harder wearing

B - Also available in Artis Bohemian designs on pages 02-06.

Annapurna (Fireglaze) worksurface and splashback

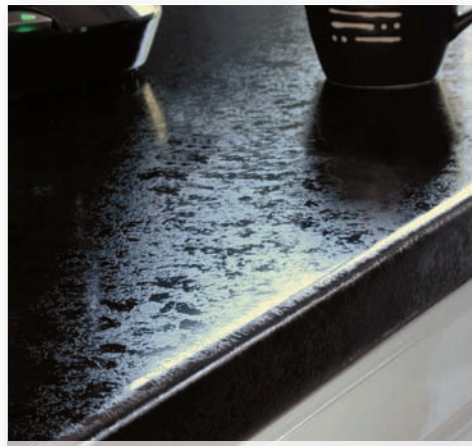

## ORIGINAL FIREGLAZE

Merging innovative **Aeon** surface technology with natural good looks, durable Fireglaze challenges comparison. Fireglaze is all about drama and surprise; the appearance and depth of texture, the flow of colour and play of light and shadow erupt through a glittering crystalline surface which changes with the light.

**Providing up to 3-5 times more wear resistance than the industry standard**, Fireglaze surfaces are incredibly tough and will not smear or finger mark easily. Fireglaze is warm to the touch, easy to clean and will retain a bright silky appearance year after year.

All worksurfaces are finished with a high performance front underseal and come with matching edging strip.

Original Fireglaze is available "off the shelf" in worksurface, splashback and upstand for a total look and hygienic low maintenance finish.
