RETAIL PRICES INCLUDING VAT

OCTOBER 2012

AT A GLANCE -

About your new kitchen, inside & out

For easy reference we have listed all the details you may need to know about your chosen kitchen. We show you what it is made from, what co-ordinating accessories are available and also provide you with our internal cabinet recommendations to make sure your new kitchen is just as stunning on the inside as it is on the outside.

Chippendale units are supplied with a clip-on hinge, soft-close damper as standard. One damper is supplied for units with standard height doors. For tall doored units with 3 hinges, 2 dampers will be supplied. Additional dampers can be purchased, please refer to page 48.

Please Note: Tall Wall units are not available in the following cabinet colours: Platinum White, Walnut & Knotty Oak

TOP TIP It's easy to underestimate the amount of cornice and pelmet required. Please double check that before placing your order you have the right quantity.

| Kitchen Range | Material Description | Lead Time | Recommended Cabinet Colour | Cornice/Pelmet Type | Plinth | Mantel | Canopy | Curved Units | Tall Units |

Painted COLLECTION

The painted collection from Chippendale is designed to bring you the very latest designer colours directly into the heart of your home. Each one has been carefully selected to provide you with a palette that will transform your kitchen into your own colour scheme.

Once you have selected your door style simply select one of the natural colours from the painted collection chart below to bring real zest to your new kitchen.

Don't forget
If you are including curved corner base and wall units within your design, please ensure you only use Lissa Oak or Matt Ivory cabinets

DELIVERY DETAILS - Our painted collection is made to order, so please allow 3-4 weeks for delivery.

The colours shown in this price list are as accurate as the printing process allows, therefore we recommend that you ask your retailer to show you a sample of the colour before placing your order.

Oak Drawers

You can now improve the specification of your new Chippendale kitchen further by selecting our oak drawers. These solid timber, oak drawer boxes feature traditional dovetail joints and where a unit can be upgraded there will be a price listed in brackets.

Turn to page 38 for In-frame oak drawer dividers and page 46 for lay-on oak drawer dividers, designed specifically for our oak drawers.

Don't forget
Remember to specify oak drawers on your order.

(Price shown in brackets denotes full unit price with oak drawers)

ADD ON PANELS

This range of 2mm edged MFC panels have been designed specifically for the Vogue range. These panels allow for any Vogue kitchen range to be clad in the same colour as the door with minimal waste and minimal re-edging on site. Please note, all panels have a vertical grain. The height dimension in the chart below represents the grain direction.

Add these letters to the order code below to indicate colour required:
AW = White Avola AC = Champagne Avola DW = Driftwood LH = Lissa Oak
NH = Natural Oak AZ = Amazonas AK = Arlington Oak PN = Pacific Walnut

Dedicated 2mm edged panels in all eight fascia colours:

| | Code | Height x Width | Thickness | Edged* | Price |
|-------------------------------------|---------|----------------|-----------|--------|-------|
| End Support panel/ | | | | | |
| Add-on Base End Panel | ESPM__ | 940 x 670 | 18 | 4S | £28 |

* Corner base units do not include a blanking panel. The end support panel ESP can be used for this purpose if required.

CHIPPENDALE CONTACT – HANDLELESS
KITCHENS: Certain units will require a handle and are indicated by the following symbols:
♦ Select from face fixed handle suites 2, 73, 78
♦ Select from handle suite 84 (for use with 'Chippendale Contact' aluminium extrusions) or face fixed handle suites 2, 73, 78
* Drawer surcharge applies. Please add £35 per drawer
▲ Any unit with this symbol requires a 'CN' adding to the code. Please see page 60 for details

In-Frame COLLECTION

Chippendale is delighted to be able to offer you the In-Frame collection. This sought after style is available in Lissa Oak and Ivory plus the eight painted colours and is supplied on either Lissa Oak, Ivory or Platinum White cabinets.

Please note all In-Frame cabinets will arrive PRE-ASSEMBLED. For those that really enjoy the finer things, a luxury oak drawer box is available as an upgrade.

Delivery details

To order any kitchen from the In-Frame collection, please see right to view the full content of the range. Please note that the lead times for the In-Frame collection are as follows:

In-Frame Lissa Oak/In-Frame Ivory : 2-3 weeks

In-Frame Painted (all colours): 3-4 weeks

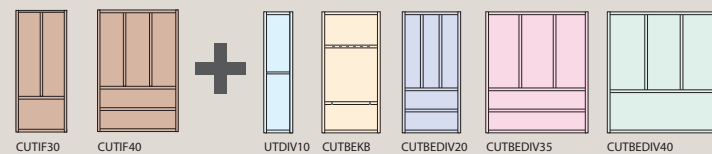

Don't forget

In-Frame units are custom made just for you. Therefore, details like which way your cabinet doors open must be specified when ordering. You will notice on the Price Group there are two codes - one for left hand and one for right hand. Remember to refer to your plan.

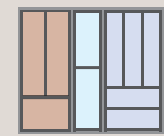

Drawer Dividers for In-Frame Units

Store your cutlery using beech or oak drawer dividers shown below. When ordering inserts for an in-frame metal drawer, please note the total divider combination must be 136mm less than the full drawer width. By combining one of the CUTIF inserts with the other inserts, you can achieve a custom solution which fits your drawer perfectly.

Beech or Oak inserts for Metal drawers

Start with either CUTIF30 or CUTIF40 and combine with your choice of any of the above dividers.

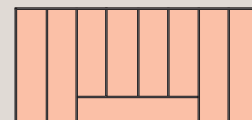

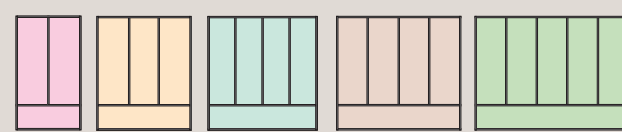

Example of 600mm Drawer

TOP TIP Please only order the drawer inserts on this page for your In-Frame kitchen.

| | Beech | Price | Oak | Price |
|--|--------------|------------|----------------|-------|
| Top Drawers | UTDIV10 | £15 | CUTDIVOK10 | £16 |
| | CUTIF30 | £24 | CUTIF30OK | £22 |

Feature Mantel Arrangement

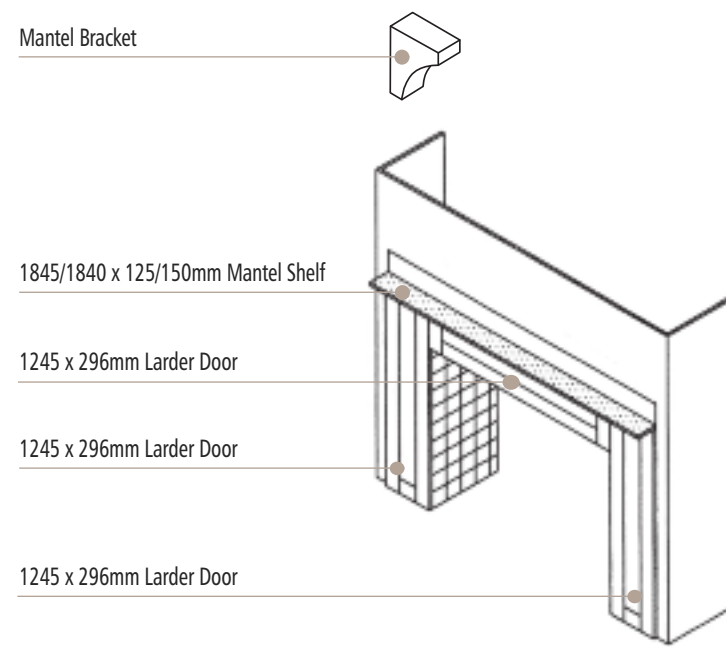

To create a feature mantel in your new kitchen you will need:

- Three larder doors (1245 x 296mm)
- One mantel shelf
- Three mantel brackets

The illustration shows the mantel shelf in position with three larder doors (1245 x 296mm) fitted to the chimney breast. The mantel shelf is supported by a minimum of three mantel brackets. A cornice can also be added to the mantel shelf if required.

For ranges where a mantel shelf is not available, a multi-purpose MFC or PVC panel should be used instead. These can be cut to size and edged. These are shown on the table below as item 2.1 & 2.2.

Please note: Decorative mantel brackets are not available in all ranges, see below for details.

| | Item 1 Larder Door 1245 x 296mm (x3 requ'd) | Item 2 Mantel Shelf 1845 x 125mm 1840 x 150mm (x1 requ'd) | If item 2 is not available use 2.1 & 2.2 instead | Item 2.1 MFC Plinth/ Multi Purpose Panel 2650 x 150mm (x1 requ'd) | Item 2.2 Edging Tape 10m (PVC unglued) (x1 requ'd) | Item 3 Mantel Brackets 65 x 90 x 40 (x3 requ'd) | If item 3 is not available construct without brackets |

TOP TIP
 Remember to order sufficient quantities of cornice, if required, to fit around the mantel.

Working Mantel Arrangement

The items for the working mantel are:

- 2 x 300mm Tall Wall Units
- 2 x Working mantel panels
- 1 x 1245 x 296mm mantel panel
- 1 x mantel shelf
- 3 x mantel brackets

Working Mantel details - basic dimensions of false chimney breast

Standard Mantel arrangements using a 1245 x 296mm fascia between the mantel blocks require a false chimney breast of 2000mm minimum width and minimum 400mm depth. Two openings of 300mm wide x 900mm high are required to house the working cupboards. The required distance between these openings is 1245mm. The tiled appliance opening width is variable dependent on the dimensions of the width left to the appliance side of the cupboard openings.

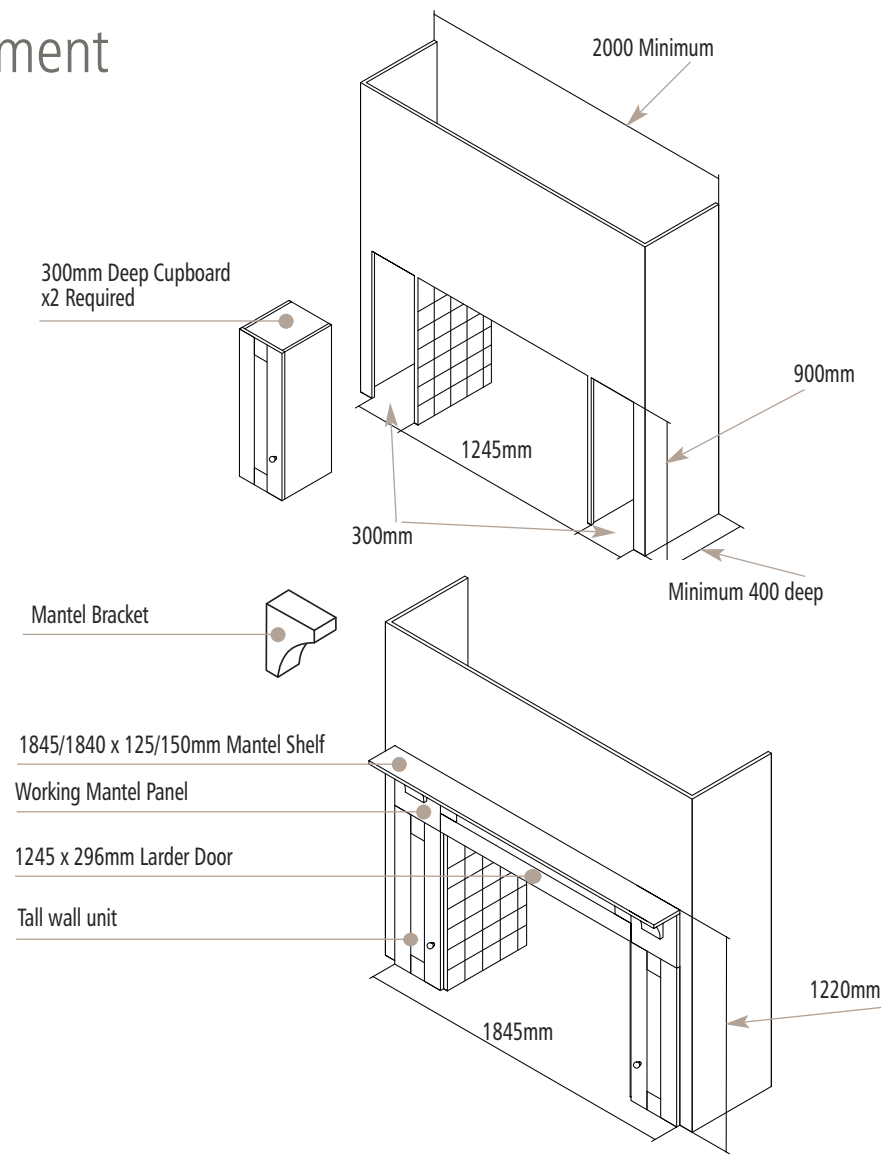

Illustration showing the mantel shelf in position with the two working cupboards and square mantel blocks above and a 1245 x 296mm fascia between the mantel blocks.

The mantel shelf is supported by three mantel brackets. Cornice can also be fitted to the mantel shelf.

| | Item 1 Working Cupboards 300/900mm (x2 requ'd) | Item 2 Working Mantel Panels (x2 requ'd) | If item 2 is not available use 2.1 instead | Item 2.1 Foil End Support Panel | Item 3 Larder Door 1245 x 296mm (x1 requ'd) | Item 4 Mantel Shelf 1845 x 125mm (x1 requ'd) 1840 x 150mm (x1 requ'd) | Item 4.1 If item 4 is not available use 4.1 & 4.2 instead | Item 4.2 MFC Plinth/ Multi-purpose Panel (x1 requ'd) | Edging Tape 10m (PVC Unglued) (x1 requ'd) | Item 5 Mantel Brackets (x3 requ'd) | If item 5 is not available construct without Mantel brackets |

Drawer Dividers - for metal drawers

If you have selected metal drawers in your new Chippendale kitchen you may want to consider drawer dividers to perfectly house your cutlery and utensils. Chippendale provides you with a choice of beech or oak inserts for both top drawers and internal drawers.

TOP TIP This section demonstrates a selection of the many variants possible using a combination of the five dividers available. Note: The internal size of the drawer is approx 100mm less than the external and needs to be taken into account when ordering dividers.

Utensil Divider - 100mm
UTDIV10 (Beech) £15
CUTDIVOK10 (Oak) £16

Fixed Cutlery Tray - 200mm
CUTBEDIV20 (Beech) £29

KESSEBÖHMER

Chippendale Kitchens include great design ideas, not just on the outside but on the inside too.

Kesseböhmer storage solutions provide stylish, practical and functional solutions making for better organised and easier access to storage space.

In addition to brilliant functionality, Kesseböhmer storage solutions stand for exclusive design and a high quality finish. Internal cabinet space is used more efficiently than conventional systems, helping you get the most out of your Chippendale kitchen. Kesseböhmer stands for un-paralleled user comfort and for a level of quality that sets standards worldwide.

- 'SoftStopp' soft close action available on pull-out base units and larder units, incorporating Kesseböhmer storage solutions (except LeMans)
- Solid bottom shelves available (Arena shelves)
- Greater load bearing capacity than conventional solutions
- Greater level of usable space due to square edges on baskets

Handles

Unit prices include the cost of a handle suite. Suite 20 carries a slight surcharge which your Chippendale Kitchen retailer will include in their quotation on request. An example of the surcharge is shown against the handle suite. If required, additional handles may be purchased individually at the prices shown. Please specify the Raw Material Code e.g. **H0005100**.

CHIPPENDALE SINKS & TAPS BY SCHOCK

The range of sinks and taps below have been specifically developed with Schock, providing a comprehensive and stylish offer.
 Schock is the world's leading supplier of granite sinks and the Neptune range is made from their outstanding material, CRISTALITE®.
 Schock sinks are easy to clean, safe for use with food and are

finished with Schock Antibac. The special hygiene protection uses natural silver ions to reduce bacterial growth by up to 95% and make working in the kitchen cleaner and safer.
 The range of stainless steel sinks from Schock are made from 18/10 grade stainless steel – the highest grade available – ensuring your sink is highly resistant to staining, rusting and corrosion.

† IDEAL FOR MOUNTING ON A SOLID SURFACE SUCH AS TOPP, WOOD OR GRANITE

Quadra Worktops & Breakfast Bars

Worktops are supplied slightly oversize with separate edge lipping for two ends. They are intended to be cut and edged on site, therefore please make sufficient allowance for this operation. We recommend approximately 50mm.

Wood Worktop edgings are available for all wooden kitchen fascias. Please refer to the mouldings section of the price group.

Worktop Colours

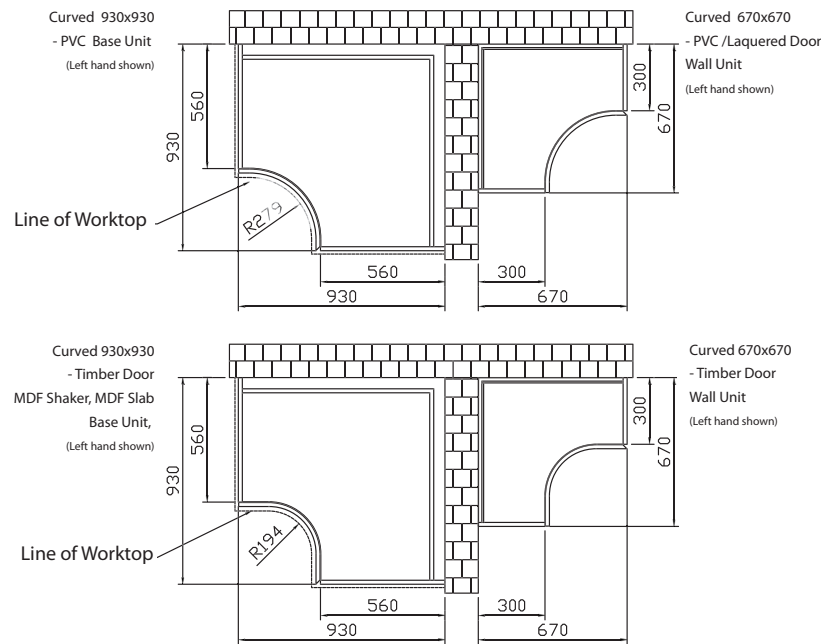

SPECIAL WORKTOP PLANNING GUIDELINES

Planning Details for Curved Units

CURVED UNITS - Internal Curved Corner Units

Colour Co-ordinated Cabinets

Cabinets are made from 18mm thick Melamine Faced Chipboard (MFC) panels incorporating solid backs. You can choose from 10 colour co-ordinating finishes which feature on both interior and exterior surfaces.

You can choose any cabinet colour to co-ordinate your chosen fascia.

Gloss Stone illustrated with full extension drawer

(* Walnut, Platinum White and Knotty Oak are not available in Tall Wall Units)

CABINET FEATURES

Base and wall unit fixing brackets are concealed with nickel cover caps
 Drawer dampers cushion the closing action providing a softer, quieter operation
 150mm adjustable legs (height 140-178)
 All metal adjustable hinges with simple clip-off system
 Solid backs in base units are 15mm and in wall/tall units are 8mm

Chippendale cabinets are available with an oak drawer upgrade - see page 9.

DRAWERS
 Chippendale Kitchens are now supplied with dampers and full extension metal runners as standard. Full extension allows the drawer to open to its full depth for easier access.

Chippendale 'Contact' - Handleless kitchens

The Chippendale 'Contact' system is designed to make the planning and installation of a handleless kitchen as simple and straightforward as possible. Some basic principles are covered in this technical section and a full installation and adjustment leaflet will be supplied with each Chippendale 'Contact' kitchen.

The principle of 'Contact' is that wherever possible, doors and flaps are opened simply by touch which will activate the opening mechanism.

(Please note that certain appliance doors, pull-out units, magic corner units, etc are not available with this touch open system. The following pages will demonstrate the various options for designing a 'Contact' kitchen with these units).

In the same way, 'Contact' drawers and pan drawers are opened by simply pressing on the drawer to activate the spring open runners.

(Please note that certain drawers used on pull-out units are not available with spring open drawer runners. Internal drawers are not available with spring open runners).

A surcharge of £35 per drawer applies. Units that are affected by this are identified in the Price List by ★.

You will automatically receive the full quantity of 'contact' mechanisms to match your order. Additional 'contact' mechanisms can also be purchased, please refer to page 48.

Chippendale 'Contact' is available on all Vogue, Lastra Painted and Technica doors. Also available in Gloss Walnut and Pure White.

Please ensure you specify 'Contact' on your order.

Handle Options For Appliance Housings/Fascias, Pull-Out Units and Magic Corner Units

Any units that require a handle, such as appliance housings, appliance fascias, pull-out units and magic corner units, are clearly marked in the Price List with the following symbols:

- ◆ Select from handle suite 84 (for use with aluminium extrusions) or face fixed handle suites 2, 73, 78
- ◆ Select from face fixed handle suites 2, 73, 78
- ▲ When using the aluminium extrusion under the worktops, the conventional corner unit must use a variable corner post. The post will be supplied in the form of a 716x146mm fascia and will require cutting to fit on site. *Please add 'CN' to the end of the code to order in 'Contact'.*

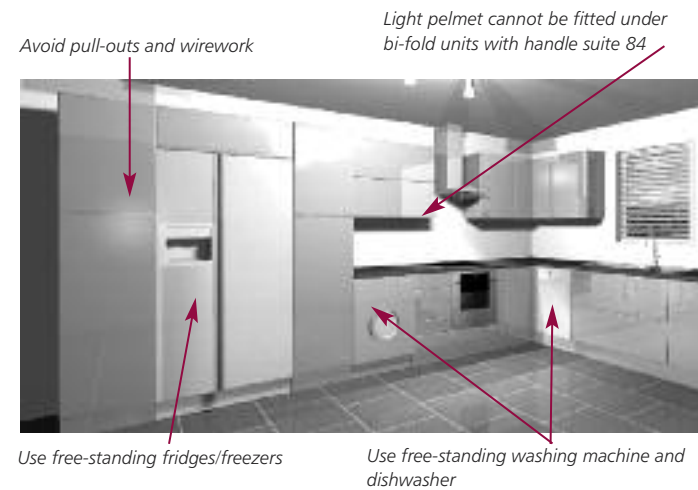

Suite 84 has been specifically designed to work with 'Contact' kitchens when aluminium extrusions are used.

This handle can be fitted simply, on-site, and enables the individual to pull open the units specified above, whilst not intruding on the handlefree design.

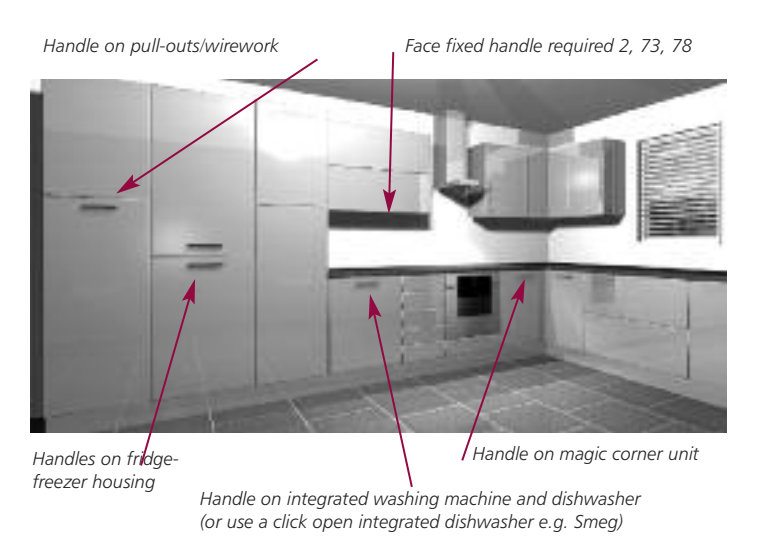

Option 1 - Free-Standing Appliances

The simplest way of designing a Contact kitchen is to use free-standing appliances whilst avoiding certain units – e.g. pull-out units, magic corners, etc. Any unit that requires a handle will be clearly identified within the Price list.

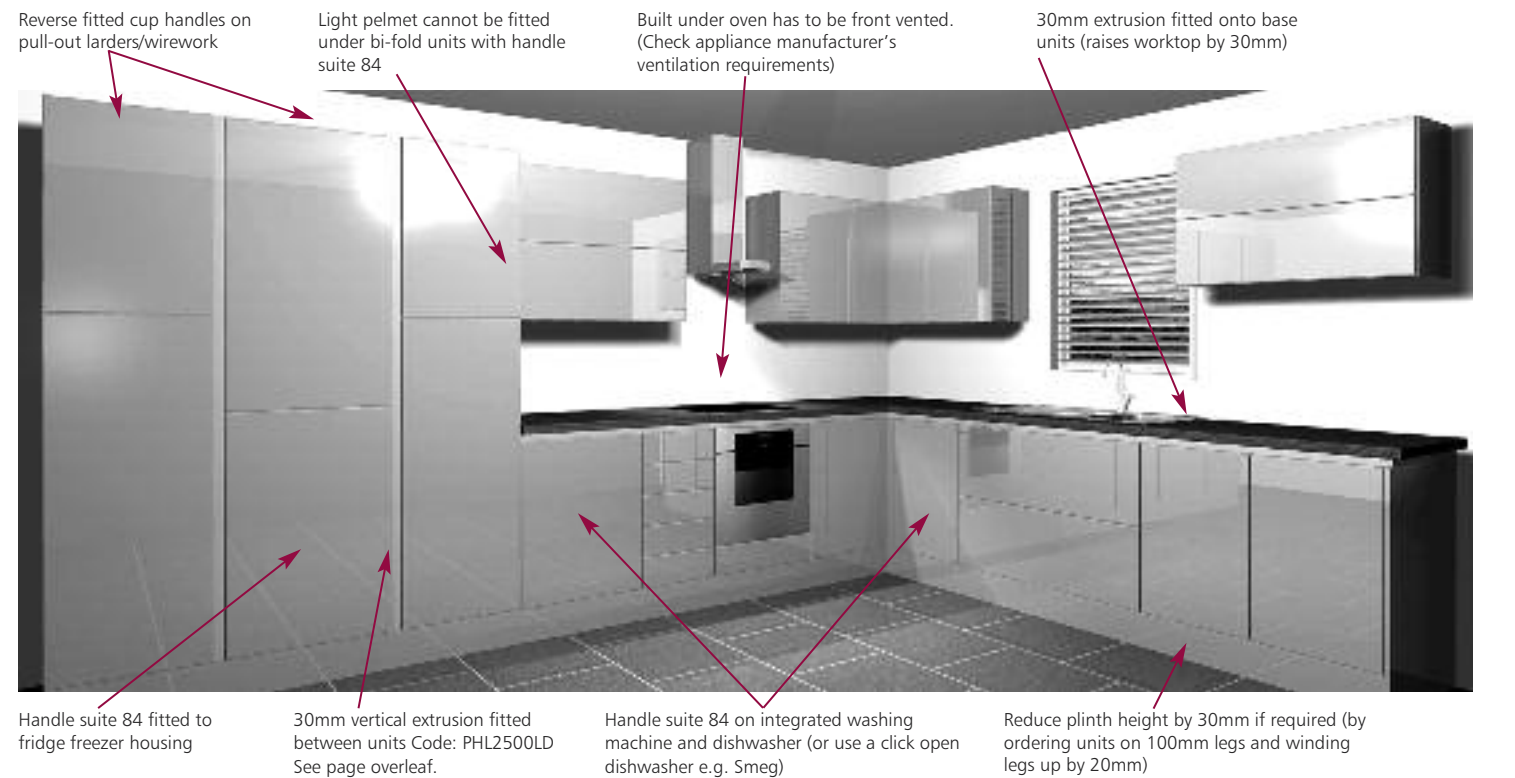

Option 2 - Integrated Appliances

The second way of designing a Contact kitchen is to order certain appliance doors and units with a face fixed handle. These are highlighted in the Price list and recommended handle suites are 2, 73, 78.

Option 3 - Aluminium Extrusion

The third way of designing a Contact kitchen is to fit worktop extrusion to the base units which lifts the worktop by 30mm. 30mm vertical extrusions are used between tall units. Certain appliance doors and units need to be ordered with handle Suite 84 with the extrusions providing a recess which allows access to the handle.

Aluminium extrusion fitted horizontally below worktop Code: PHL3500WT. See page overleaf.

Suite 84 – Units that require this handle are marked with ◆

PLEASE NOTE THE WORKTOP EXTRUSION CANNOT BE USED WITH CURVED UNITS.

CONTACT HANDLELESS EXTRUSION KITS

Contact Worktop Extrusion Kit

Kit includes:
1 x 3500mm Extrusion
10 x Fixing clips
5 x Worktop spacers
1 x roll of sealing strip 6000mm

CODE **PHL3500WT** £108

Contact Worktop Extrusion Kit – Island End Piece

For use on island units where a 596mm add-on panel is used at each end

CODE **PHL555END** £21

Contact Worktop Extrusion Kit – End Piece

For use at the end of a run of base units – trim one end as required

For use on island units where an 890mm add-on panel is used at each end

CODE **PHL829END** £28

Contact Vertical Extrusion Kit

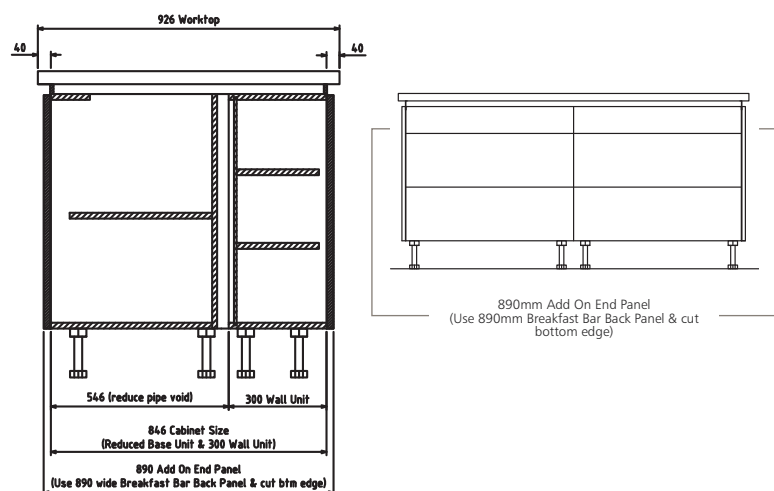

Kit includes:
1 x 2500mm extrusion
8 x Fixing clips
4 x Spacers

CODE **PHL2500LD** £87

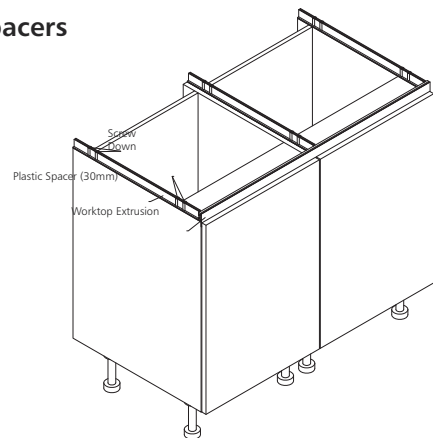

EXTRUSION FIXING

Contact 926mm Island Unit Extrusion Fixing

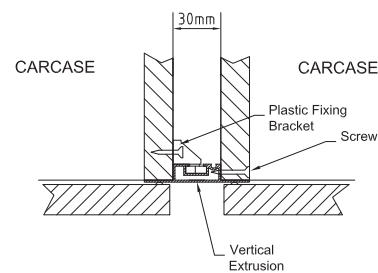

EXTRUSION FIXING / WORK SPACES / DRAWER RUNNERS

Contact Worktop Spacers

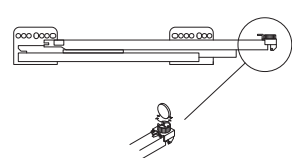

Contact Tall Unit Extrusion Fixing

Touch Tall Unit Extrusion Fixing

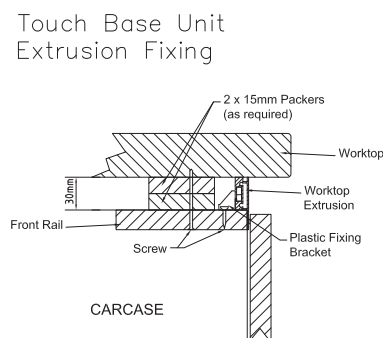

Contact Drawer Runners

To adjust the gap between the drawer front and the front of the carcase, use a coin to turn the adjustment screw at the back of the runner.

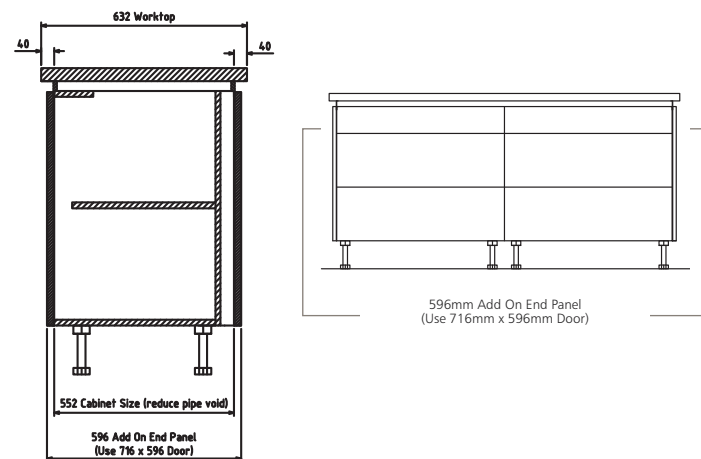

A gap of approximately 4mm is required to activate the 'Contact' mechanism.

Technical Specifications

Standard Height Base & Wall Units

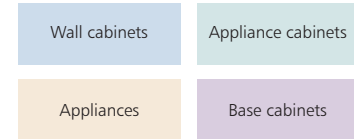

BEFORE ORDERING PLEASE NOTE:

75% of all kitchens ordered have insufficient quantities of plinth, cornice/pelmet and accessory panels.

Please double check your requirements allowing sufficient extra lengths to cover joints, mitres, shapings etc. Failure to do so may delay your installation.

KEY

(!) = CHECK UNIT AVAILABILITY IN PRICING SECTION

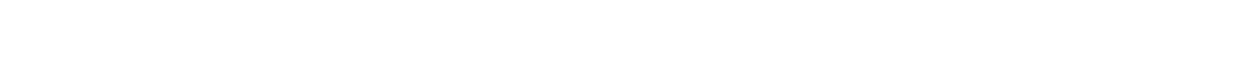

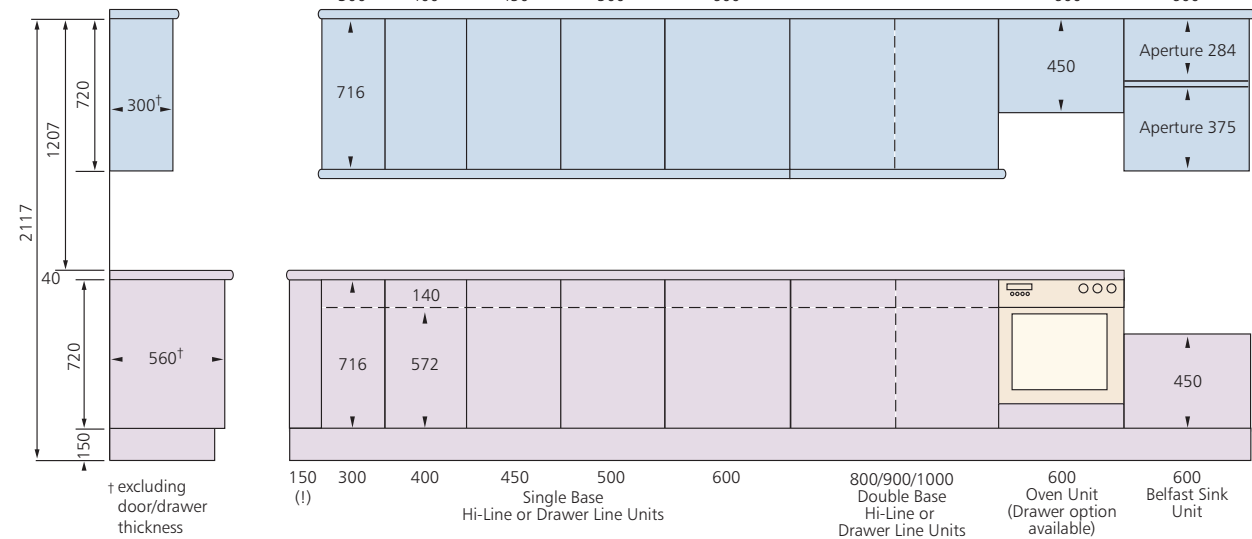

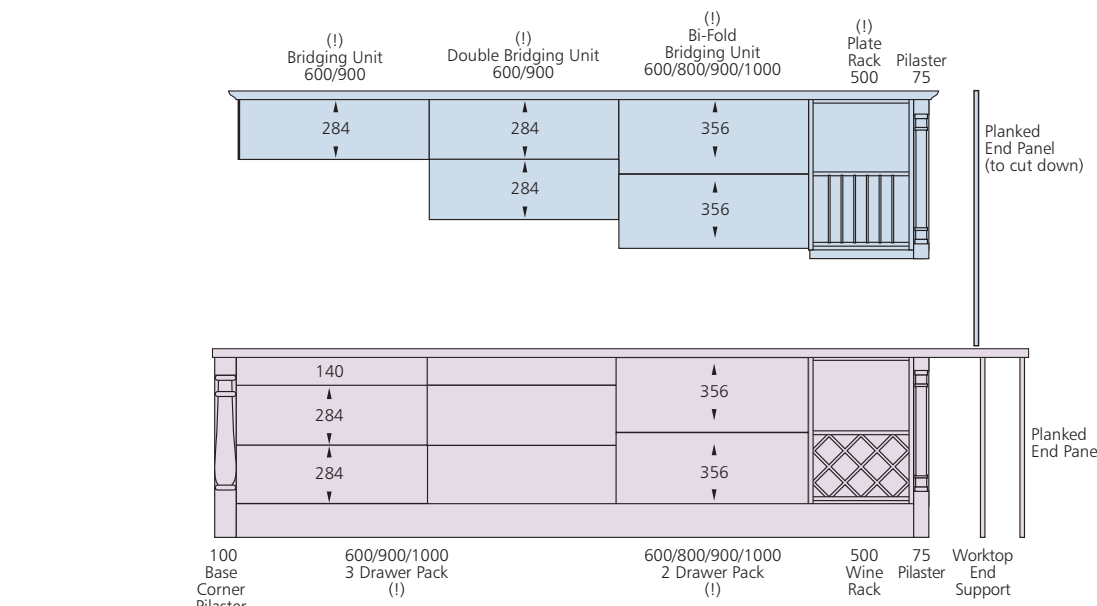

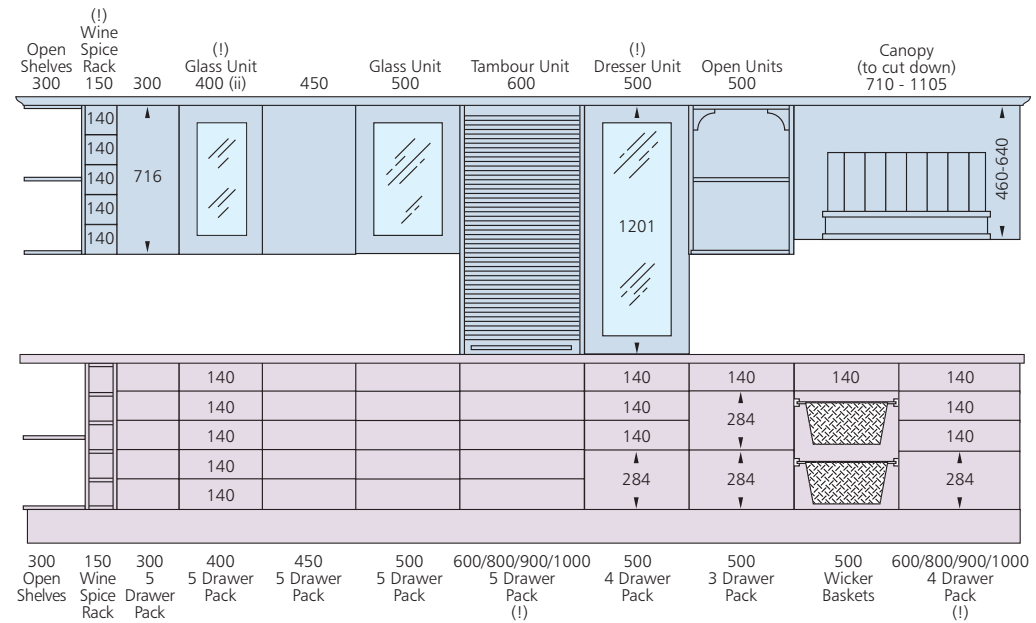

NOTE:

Measurements are in millimetres.

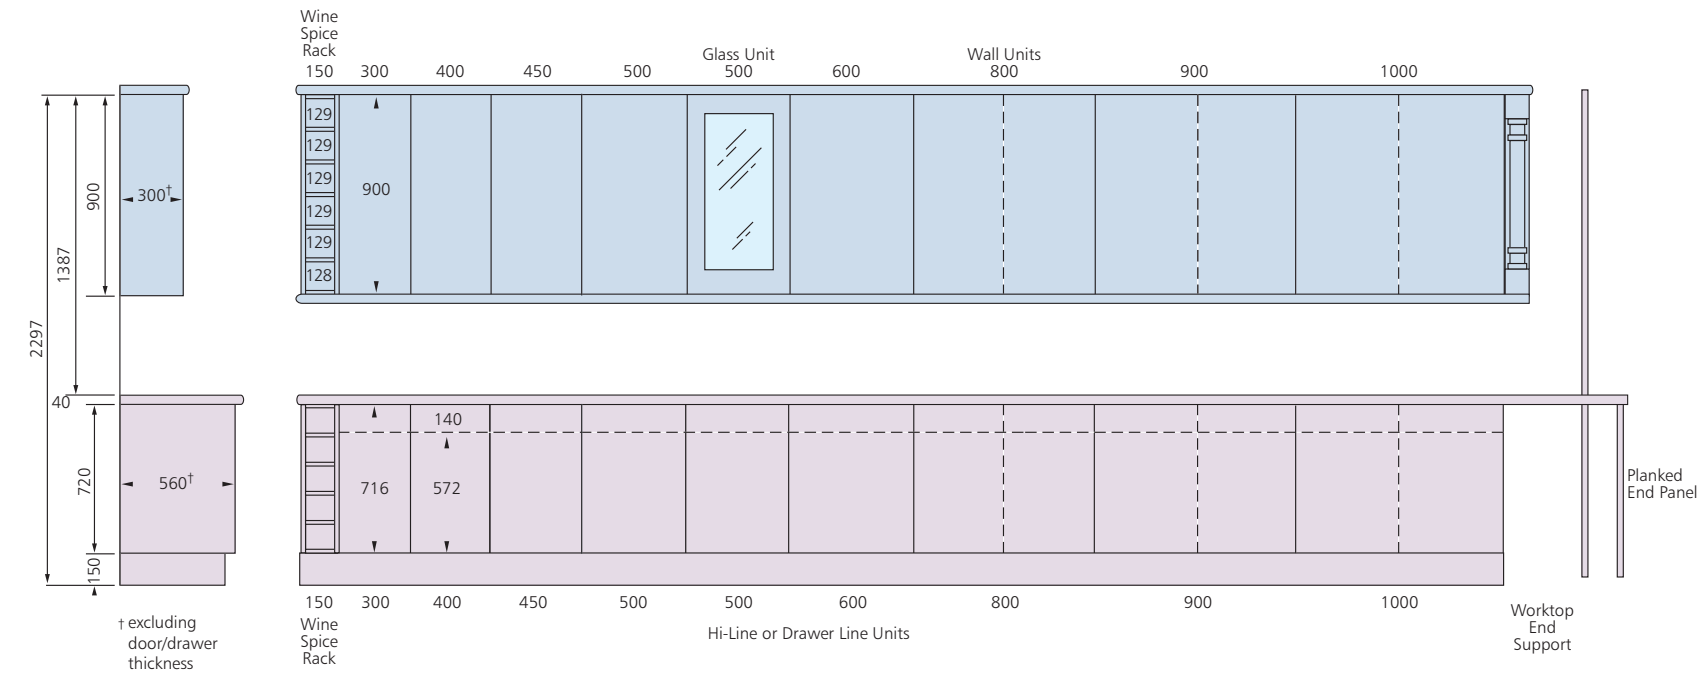

Not all units shown are available in every range.

Inside stacked wall units and bridging units under cupboard lights should be used instead of low voltage downlights.

J-profile doors are drilled for hinges on both sides to allow for either a left or right hand opening position.

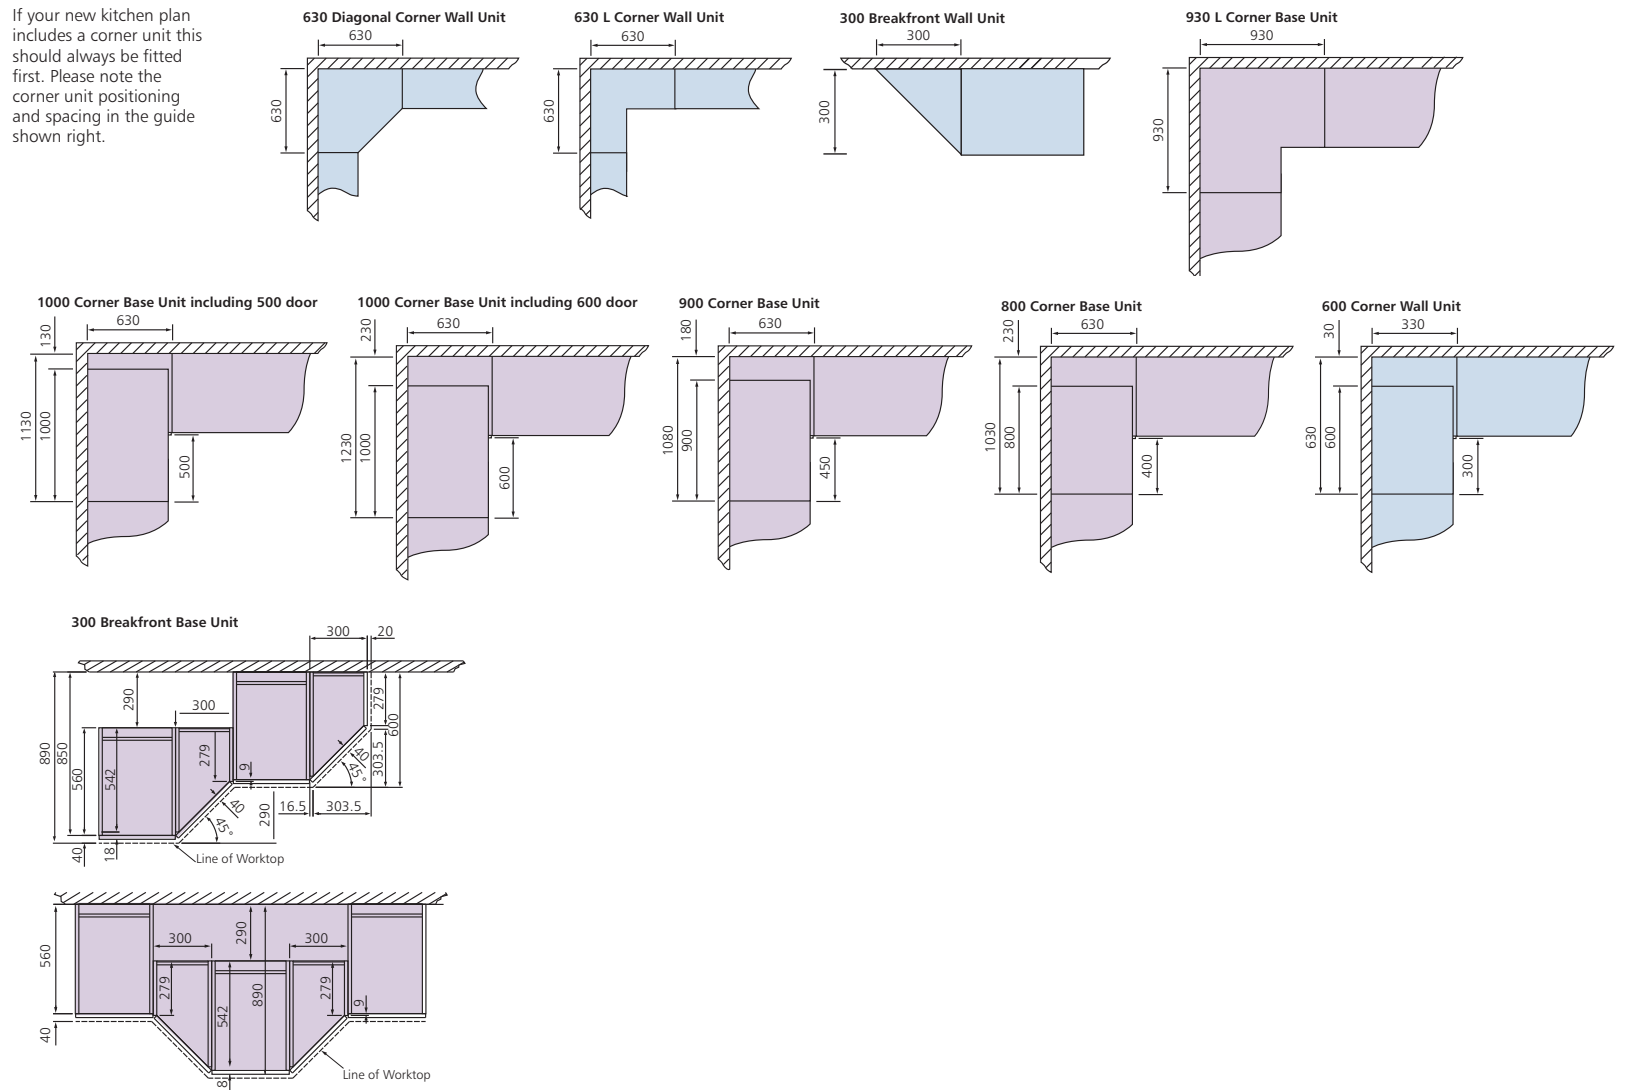

Tall Base & Wall Units (Please refer to the At a Glance pages for details of tall unit availability)

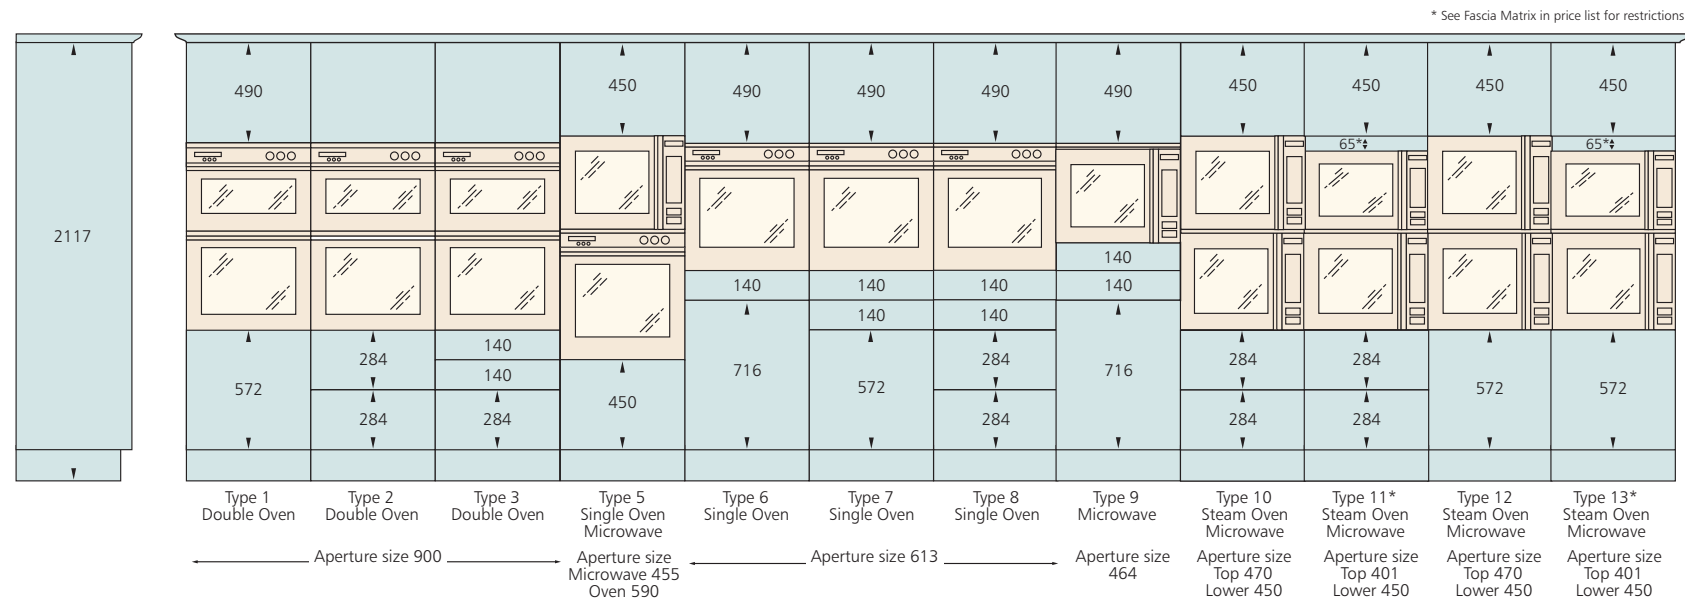

Corner Units

If your new kitchen plan includes a corner unit this should always be fitted first. Please note the corner unit positioning and spacing in the guide shown right.

KITCHEN CHARACTERISTICS

Wood is a natural material with an endless variety of texture and grain. Variations are natural and whilst they may be evident on installation should diminish over a period of time to create a pleasant uniformity. Particular characteristics include random selection of grain and colour within doors.

As our policy is one of continuous improvement, we reserve the right to amend designs and specifications without prior notice. Where real wood veneers are used on external surfaces, we are unable to guarantee an exact match due to natural variations in colour and grain. The colours contained in this price list and the Chippendale brochure are as accurate as the printing process will allow and we recommend that you should view a display or sample door at your Chippendale retailer prior to placing an order.
