

USB 2.0 Flash Devices

Extremely
Fast.
Extremely
Versatile.

Plug and Play Convenience

This Hi-Speed USB 2.0 Flash Drive is an innovative way to store, share and transport your data. Plug it into any USB port, drag and drop your files and simply carry it with to and from your home, office or anywhere you travel. Available in six capacities up to 4GB, this unique 14 grams drive can quickly and easily transfer, share and store almost any digital information, including photos, video and audio clips, Web sites and business documents.

It's ideal for people who conduct business from planes or hotel suites, photographers who shoot and save on the go, or students who need a convenient, easy way to store projects and notes.

To protect files from unauthorised use or accidental erasure, the drive offers optional password protection and locking functionality. Partitioning software allows you to designate secure and public areas on the drive.
