thecompleteguideto

# Perforated Vinyl - Removable Adhesive 150 $\mu$

- A 150mic monomeric perforated vinyl with a removable black adhesive
- Excellent for window graphics and displays
- Suitable for outdoor use for 2 years (relates to life of vinyl)
- For use with eco, eco+, eco ultra and solvent inks
- Excellent view through characteristics
- Black back for an excellent appearance from reverse

## Perforated Vinyl - Removable Adhesive 150 $\mu$

code	size	pack qty
GD115108	1372mm x 50m	1 Roll

## printer compatibility

### Perforated Vinyl - Removable Adhesive 150 $\mu$ :

Printer and driver settings may need careful calibration to ensure optimum performance. Ink loads need to be calibrated for the combination of the printer and ink being used.

Suitable for all leading printers and with all major manufactured inks.

thecompleteguideto

# Clear Cling Gloss 150 $\mu$

- A clear static cling product with a glossy finish
- Ideal for all window displays
- The static cling adhesion allows for removal without residue
- Easy to remove and re-use
- Suitable for high quality durable signage
- Excellent sharp colourful images
- Short drying times
- Suitable for indoor use for up to 3 years (1 year outdoors)
- For use with eco, eco+, eco ultra, uv curable and solvent inks
- Accepts high ink coverage

## Clear Cling Gloss 150 $\mu$

code	size	pack qty
GD115112	1372mm x 25m	1 Roll

## printer compatibility

### Clear Cling Gloss 150 $\mu$ :

Printer and driver settings may need careful calibration to ensure optimum performance. Ink loads need to be calibrated for the combination of the printer and ink being used.

Suitable for all leading printers and with all major manufactured inks.

# White Cling Gloss 150 $\mu$

- A white static cling product with a bright white glossy finish
- Ideal for all window displays
- The static cling adhesion allows for removal without residue
- Easy to remove and re-use
- Short drying times
- Suitable for high quality durable signage
- Suitable for indoor use for up to 3 years (1 year outdoors)
- For use with eco, eco+, eco ultra, uv curable and solvent inks
- Accepts high ink coverage
- Excellent sharp colourful images

## White Cling Gloss 150 $\mu$ :

Printer and driver settings may need careful calibration to ensure optimum performance. Ink loads need to be calibrated for the combination of the printer and ink being used.

Suitable for all leading printers and with all major manufactured inks.
