

**100 trays
in 7 minutes
cleaned and
greased!**

Tray cleaning machine BRM de luxe

**The silent and efficient cleaning
of two-rim baking trays.**

The perfect solution for
demanding customers

Tray cleaning machine BRM de luxe

Let you also fill with enthusiasm by the Riehle BRM de Luxe.

By the massive stainless steel frame construction and the silent sprocket belt drive during the regular operation the BRM de luxe is hardly audible.

The tray is introduced in the feed with the baking surface facing down; it is taken by two feed rollers and transported over two rotating brushes that clean the tray on both sides. After transfer to secondary cleaning brushes and the oiling unit the tray is output from the cleaning machine to a distributor trolley.

Option

- ▶ 10 litres oil tank

Available accessory

- ▶ Distributor trolley for removal of cleaned trays

Advantages of the BRM de luxe

- massive stainless steel frame construction of 6 mm side parts with massive cross holders for exact parallelism also in uneven bakery floor
- Computer control with different cleaning programmes
- 2 cleaning stations for best cleaning results
- top and bottom brushes readjustable
- all brushes with quick coupling removable – the bottom brushes also
- all brushes spring loaded for mild cleaning
- spring loaded transport rollers to avoid rolled trays
- sprocket belt drive is silent and lacking in maintenance
