

Deep fryer **Fettboy 93** **Fettboy Digital**

The deep fryer for smaller quantities

Visual baking in the shop or in front of the shop, for parties and events is the mobile sales attraction. The Fettboy 93 and Fettboy Digital mobile deep fryers attract customers and get them into the shops.

Fettboy 93

Fettboy digital

Deep fryer Fettboy 93/Fettboy Digital

The mobile deep fryers Fettboy 93, and Fettboy Digital, in table design are ideally suited for smaller quantities (approximately 20 to 30 pastries per bake process), particularly for small, fat-consuming doughs. These deep fryers are ideal supplemental equipment for any bakery or for visual baking.

In addition, Fettboy Digital offers digital heat control for minimum temperature fluctuations, as well as a target/actual temperature display, and thus ensures minimum fat consumption. The basic version is delivered as a table device with two flat fry baskets and lid.

Controller Fettboy digital

Controller Fettboy 93

Advantages:

- ▶ Supplemental device for small quantities
- ▶ Ideal for visual baking
