

Manual causted soda applicator **Tauchboy**

Easy introduction to causted soda application

The Tauchboy manual causted soda applicator offers to craft bakeries a solution that has proven itself for more than 30 years. A causted soda applicator easy to handle that covers the need for small production.

Manual causted soda applicator Tauchboy

With its simple handling and minimum space requirements, Tauchboy is a cost-efficient causted soda applicator. Thanks to advantages, such as fast and easy cleaning and its mobility with a rolling underframe, Tauchboy is used in

production, as well as in shops for on-site causted soda application. The entry model is made entirely of stainless steel, it can be locked, and it is shipped with a salt container.

The following sizes are available:
