

Chlorella

Chlorella is a single cell green algae. It has a high level of phytochemicals which help the body to eliminate and detoxify harmful impurities. It is rich in protein, minerals and vitamins and is said to help maintain a healthy immune system and fight against disease.

In powder form it is a very popular nutritional food dietary supplement and is used by many consumers to help fight tiredness, maintain strength and to aid general well being.

Cyte Essentials chlorella is 100% pure without any additives.

Typical Chlorella Analysis

Test item	Specifications	Result
Appearance	Fine green powder	Conforms
Taste	Mild, like seaweed	
Protein	50.00% min	58.00%
Moisture	7.00% max	6.61%
