Tables - £1.00 each

Minimum charge applies: £25

The Village Hall now has a variety of lighting solutions that can be hired, to enhance any type of functions, from parties to conferences.

LED Par Can

There are 20 of these DMX computer controlled par cans located throughout the main hall. They can be programmed to strobe, fade, flash to music and display many different colours. There are a number of scenes pre-programmed that should cater for most functions, but more can be added.

This powerful 400W UV cannon will fill the hall with an outstanding UV glow. The unit has been specially designed to house a 400W blacklight lamp and also features a protective front grill and hanging bracket. This high output fixture will transform any event, club, bowling alley or stage by creating a wide spread of atmospheric UV light.

The ADJ Micro Burst is a spectacular device that shows off a moonflower effect that litters the room with spots of color. Perfect for parties, karaoke events, small bars, and clubs. Make your venue or dance floor the talk of the town.

All of the above are Hired as a package in conjunction with the hire of the main hall, the current hire charge is £15 per session, due to high replacement cost there is a refundable damage deposit of £100.
