Dear Eric

Re: BBA Assessment of Filon GRP Valley Trough and Flashings Range

In connection with our recent conversation, I confirm that Filon GRP Valley Trough and Flashings Range are currently under assessment by the BBA, for use to provide a weatherproof junction at features such as changes of direction and material in roofs for use in slated and tiled roofs constructed in accordance with BS 5534 : 2003.

Our assessment is now complete and it is envisaged that a Certificate will be issued in the near future.

Yours sincerely

A handwritten signature in black ink that reads 'N. Sharma'.
