Web Design

Before starting my course in Web Design, I had some experience of IT and using the Internet, but no idea how to create a Web site, yet alone use an Apple Mac! So it was a real challenge for me to learn how to do this, but Paul - our expert, friendly and very patient tutor - soon put me at ease and pointed me in the right direction.

I was impressed with how much we covered and how it soon started to make sense and click into place - literally!

By the end of the course, I felt that I had grasped a real understanding of Web design and a new found confidence in my ability to use it.

Everyone at Hove College has been great and really supportive, making it such a nice welcoming place to study. They make sure that you are looked after and get the best possible out of your experience whilst you're there.

I now feel confident and well equipped enough to use my skills at work and to begin designing web sites for other people - Its really opened doors for a bright future!
