

LOCATION

BROOMHAYES, BAKEHAM LANE, ENGLEFIELD GREEN, SURREY

CLIENT

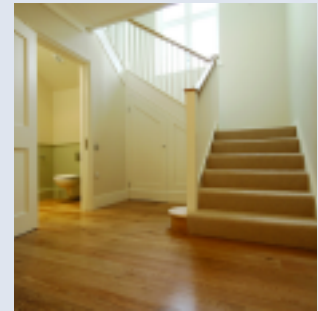

BROOMHAYES PROPERTIES LLP

CONSTRUCTION VALUE OF SCHEME

£1 MILLION

ARCHITECT

JONES LAMBELL ARCHITECTURE & DESIGN LTD

FACT FILE

A successful planning application enabled the client to subdivide the site into two. Kaymac's expertise in both areas of new build and refurbishment projects secured their appointment to carry out two very different schemes.

The first part of the scheme was the extensive alteration, refurbishment and extension to an existing 1920's detached property on the site. This involved partial demolition and rebuilding the property, providing completely new layouts to both ground and first floors. The second part of the scheme involved the construction of a new three storey, five bedroom detached property. This was built to a high specification, to NHBC approval and entailed extensive removal of trees whilst preserving those with preservation orders.

The project was completed within budget and on programme

FEATURE

COMMENT
